

HERE/NOW

Drought, climate change, and the Lower Embudo Valley

Celebrando las Acequias 2013

6th annual exploration of land, water, and culture in the Lower Embudo Valley.

Saturday, July 13th, 2013

Mission Embudo, Dixon, NM

This year is different. No music. No awards. No slide shows. Just some hard questions. How can acequia neighbors support each other in getting through this drought? How can we work together to adapt the Lower Embudo Valley to be stronger in future droughts? This year's Celebrando focuses on the immediate challenges of extreme drought (morning session) and future challenges of climate change (afternoon).

9 am to noon: Handling the Drought: What is to be done?

Noon-1:30 pm: Working lunch for participants only.

1:30 pm to 5 Planning for the Future: *An Updated Watershed-Based Plan for the Lower Embudo Valley*

Participation limited to a maximum of 60 people.

RSVP by 5 pm Thursday July 11th to Estevan Arellano:
